

# For maximum requirements: S 7000 PREFINO

There are tasks that only specialists can handle. Furnishing changing rooms, for example. Where the crucial bit of extra space, functionality, and design is needed - that's where Prefino comes into play:

- **Extra-large locker capacity**  
for more storage space
- **Special interior fittings**  
for practical and orderly lockers
- **Absolutely sanitary**  
thanks to smooth interior walls and bases
- **Optimum use of space and interior design**  
thanks to versatility and reconfiguration options
- **Double-walled design**  
for interior lighting, safe and clean online locking systems, and much more
- **Body and steel doors electrolytically zinc-plated as a standard**

Steel

Stainless steel

Phenolic HPL decor

*The durable system body made of steel (alternatively stainless steel or aluminum) is the ideal basis for creative door variants in different materials.*

*For additional furnishing examples from a market leader, please see the Prefino product series brochures or our website at [www.cp.de/prefino](http://www.cp.de/prefino)*

*Real-wood veneer*

*Glass with printed motifs*

*Phenolic HPL with vectogram*

**Prefino offers countless customization options.**

We look forward to your project-specific inquiry and will gladly provide you with an offer tailored to your specific needs.

## Have a seat!

Depending on a building's design, a variety of different sub-frames can be utilized with locker systems. Prefino is flexible - and therefore well equipped for any challenge.

In addition to the classic foot and base designs, integrated bench solutions are becoming more and more commonplace. Be it overhanging benches on an existing base, benches built in front with shorter doors, or benches with storage boxes underneath: Prefino is the best choice for an ideal outcome.

All of the sub-frames shown here are very easy to clean, in part thanks to the clear-cut corner solutions. For you, this means extraordinarily sanitary conditions and simple, fast, and therefore cost-effective cleaning. Furthermore, the option with storage boxes underneath offers additional space that has generally gone unused - a true added benefit for visitors.

**We look forward to your project-specific inquiry.**

**Bench with storage box underneath:**

*The bench surface serves as a lid that can be opened only by the user of the locker. It ensures that bags, helmets, and other items can be stored comfortably and removed easily.*

**A clean solution.**

In areas with high hygiene requirements (such as the food industry), locker systems have to meet special demands. The connection to existing ventilation and extraction systems also requires a professional solution.

**Benches in front with phenolic HPL seat:**  
 This version as well as the variant with storage box underneath can also be retrofitted on request.

**Swing-over bench**  
 This bench serves as the transition from the contaminated area to the clean space. Street shoes remain on the contaminated side.

In addition, this also requires suitable supplementary products, such as swing-over benches, over which employees move from the "contaminated area" to the "clean area". C+P offers the perfect range for these furnishing tasks.

# The highlight: S 7000 PREFINO

### Sanitary and easy to clean

Thanks to the smooth interior walls and bases, "dirty corners" are a concept unknown to Prefino. The double walls offer a safe installation space for interior lighting, online locking systems, ventilation and extraction systems, and much more - a novelty on the market!

Smooth interior walls - and endless possibilities behind them

### The Prefino ventilation concept

Drying and ventilation play a major role in locker design. In Prefino lockers, the optimized air flow design allows clothing to dry much faster than in conventional lockers. It offers options ranging from the effective self-drying concept (SVL) all the way to forced ventilation with an integrated dryer. (See illustration)

## The allrounder for special furnishing needs.

**Steel doors:** Double-walled and insulated, 19 mm thick, offers unlimited color coating options.

**Phenolic HPL doors:** Made of high-pressure laminate, 13 mm thick and available in a variety of appealing decors.

**Glass doors:** Made of colored, enameled safety glass, 8 mm thick, for a particularly classy design.

**Labeling and orientation:** Customized numbering and pictograms (monitors integrated in the glass or mirror panel on request).

Lockers ..... 114

Double-tier lockers ..... 116

Box lockers ..... 118

Z lockers Business Class ..... 126

**Glass shelves:** Made of safety glass, 8 mm thick, as an elegant and stylish solution for the interior.

**Monitor and LED lighting:** Can be integrated behind the attractive mirror panels.

**All common mechanical and electronic locking systems can be integrated in Prefino:** From turning bolt latches to coin-operated locks to electronic online locking systems with central display, which also provides information about the free and occupied lockers.

# S 7000 PREFINO

## The S 7000 Prefino series offers more:

- Sturdy steel construction with multi-functional modular system, overlay doors and high-quality enamel coating
- **Spacious body height of 1850 mm (1950 mm incl. feet or base)**
- **Body and steel doors electrolytically zinc-plated as a standard**
- Fronts made of steel, optionally phenolic HPL with wood decor or enameled glass for an even more attractive appearance
- Double-walled design for high stability
- **Smooth interior walls - sanitary and easy to clean**
- Compartment sizes can also be retrofitted later
- Door opening limiter 90° and doorstop silencers for outstanding closing characteristics as standard fittings
- Cylinder lock with 2 keys
- **Novel slanted roof (optional)**
- Perforated storage shelf for improved ventilation
- Sturdy wardrobe rail made of oval profile with 4 twist-proof double coat hooks and different positioning options for optimum adjustment to user behavior
- Wide variety of interior fitting solutions for any requirement
- Sub-frame alternatively with feet or base as well as with spacious storage box or bench on request
- Optimum ventilation, alternatively through SVL (self-ventilation), FVL (forced ventilation), or FVLD concept (forced ventilation with dryer)
- Glass doors always supplied in disassembled state for safe transportation

## Mirror panels

Prefino offers a range of different end face plates to enhance both the function and the appearance of the ends of locker rows, which often go unused.

The panels with integrated mirrors with or without deposit areas, with sockets or lighting, allow for customized options for this space.

They can either be attached to lockers or simply to the walls of a room.

**C End face plate**  
to be attached to the side of the locker row, **for locker depths of 525 mm**  
For additional mirror panel options, please submit a project-specific inquiry.

# Accessories for lockers

**Lots of other design and veneering options await you.**

We look forward to your project-specific inquiry.

## Labeling and orientation

What good is the best changing room facility if you keep getting lost in it? C+P labeling systems put an end to this problem. From simple numbering of steel lockers, to graphically supported signs – you're in the perfect place here! Orientation is more than just a small detail.

For you this means:

You save time and money, avoid unnecessary hassles, and you have a functional and attractive solution from the very start.

Everything from a single source – everything from C+P!

### Locker numbering front inscription

- Digit combination with **3** characters each
- Choice of 2 colors (white aluminum or black gray – **please specify**)
- Numbering according to customer requirements (**please specify**)

— approx. 40 mm —  
**019**  
 — approx. 20 mm —

Color	White aluminum	Black gray

**Note:** The usual designs are shown on this page. Other variants are possible. We look forward to your project-specific inquiry!

## Mechanical locking systems

At C+P you can choose from the entire range of mechanical locking systems available on the market. The basic fitting is the cylinder lock and 2 keys. The turning bolt latch for padlocks as well as deposit locks, token-operated locks, or ticket-operated locks can be integrated as well.

<b>Locking no. according to customer requirements</b>	for cylinder lock (longer delivery time)
Additional charge per lock	
+ Order no.	+ .....99
+ Addtl. charge	

**Safety turning bolts as standard design:**  
It is impossible to destroy the locking mechanism by overwinding because the locking cylinder only engages once the padlock has been removed.

**Cylinder lock:**  
The basic fitting for all S 7000 Prefino lockers. Every lock is supplied with 2 keys. Master key systems are available with or without a security certificate for more safety and convenience.

**SAFE-O-MAT deposit lock:**  
The best-selling classic among coin-operated locks. Available with traditional master key system or with the innovative PROMAX exchangeable cylinder system.

**Coin-operated deposit lock:**  
The alternative for the basic function of the deposit lock.

**For electronic locking systems** and information about the functionalities of SAFE-O-MAT locks, please see pages 160-165

**SAFE-O-MAT number plate:**  
Instead of the sign, silver, please specify numbering (order no. 8501-430).

**Coin-operated lock:**  
As classic deposit or token-operated lock where the coin is kept as a fee for the use of the locker or compartment.

**Ticket-operated lock:**  
The practical solution often used in public swimming facilities: The admission ticket purchased at the machine serves as a deposit at the same time. Staff IDs and club membership cards can be used for this purpose as well. Please submit a project-specific inquiry.
